

Evolve are still operating under restricted opening hours. Please be aware there may be occasions when staff are not on site before 10:00am opening. As soon as these restrictions are lifted we will notify you.

Fact Finders

Some of our walking groups have formed a fact finders' group, when they are out and about the borough visiting different places. On returning to Evolve they collate and investigate more about the history of places and share the information with the group.

Arts & Crafts

Our group art and craft sessions give people the opportunity to express themselves, work as a team, and display what they have accomplished. Throughout our restricted activities we have given people the opportunity to join in with these themed displays that we change regularly to reflect seasonal events and our everchanging environment.

Current Affairs

During these uncertain times we hold a group for people to look at current affairs and discuss and voice their feelings and opinions. This group was formed following a member bringing in a daily newspaper and the group members look at what's in the news. Covid has been a big subject, but we also have addressed politics, celebrities, travel. Local news and events have also been popular.
